CONTENTS OF VOLUME FIFTEEN

★

NUMBER 1. *Haematology*

Scientific Editor: D. A. G. GALTON

		PAGE
INTRODUCTION	*L. J. Witts*	1
Iron absorption	*Sheila T. Callender*	5
Radioactive vitamin B_{12} in the study of blood diseases	*D. L. Mollin*	8
The role of folic acid in the blood disorders	*Ronald H. Girdwood*	14
Biosynthesis of haemoglobin	*C. Rimington*	19
Chemistry of the abnormal human haemoglobins	*V. M. Ingram*	27
Foetal haemoglobin	*J. C. White & G. H. Beaven*	33
Variations in human haemoglobin synthesis and factors governing their inheritance	*H. Lehmann*	40
The culture of bone-marrow cells in vitro	*L. G. Lajtha*	47
The life-history of lymphocytes	*J. L. Gowans*	50
Red-cell structure and metabolism in haemolytic anaemia	*T. A. J. Prankerd*	54
Measurement of survival and destruction of red cells in haemolytic syndromes	*P. L. Mollison*	59
Acquired haemolytic anaemias	*J. V. Dacie*	67
The epidemiology of human leukaemia	*Alice M. Stewart & D. Hewitt*	73
Treatment of the chronic leukaemias	*D. A. G. Galton*	78
Notes on Contributors		3
Book Reviews		85

★

NUMBER 2. *Blood Groups*

Scientific Editor: K. L. G. GOLDSMITH

		PAGE
INTRODUCTION	*A. E. Mourant*	89
Factors determining the relative clinical importance of different blood-group antibodies	*P. L. Mollison*	92
The inheritance of blood groups	*R. R. Race & Ruth Sanger*	99
Some aspects of the biochemistry of the human blood-group substances	*W. T. J. Morgan & Winifred M. Watkins*	109
The antiglobulin reaction	*R. R. A. Coombs & Fulton Roberts*	113
Haemolytic disease of the new-born	*Fulton Roberts*	119
The management of haemolytic disease of the new-born as a community problem	*William Walker*	123
Some associations between blood groups and disease	*J. A. Fraser Roberts*	129
Blood groups and natural selection	*P. M. Sheppard*	134
Blood groups and anthropology	*A. E. Mourant*	140
Blood groups and genetic linkage	*Sylvia D. Lawler & J. H. Renwick*	145
Distribution of blood-group substances in human tissues	*L. E. Glynn & E. J. Holborow*	150
Adsorption of blood-group substances from serum on to red cells	*Joan S. Sneath & P. H. A. Sneath*	154
The relation between animal and human blood groups	*Valerie C. Joysey*	158
Haemagglutinins in seeds	*G. W. G. Bird*	165
Notes on Contributors		169
Book Reviews		171

NUMBER 3. *Current Virus Research*

Scientific Editor: C. H. ANDREWES

		PAGE
INTRODUCTION	*C. H. Andrewes*	175
Virus genetics	*Sir Macfarlane Burnet*	177
Tissue culture in relation to viruses	*J. C. N. Westwood*	181
Viral interference and interferon	*A. Isaacs & D. C. Burke*	185
Virus multiplication in the light of new techniques	*D. A. J. Tyrrell & H. G. Klemperer*	189
New serological techniques in the field of virus research	*G. Belyavin*	193
Chickenpox and zoster	*A. W. Downie*	197
Measles	*K. McCarthy*	201
Vaccination against poliomyelitis in the United Kingdom	*G. W. A. Dick & D. S. Dane*	205
Enteroviruses	*A. D. Macrae*	210
Influenza and its complications	*C. H. Stuart-Harris*	216
The common cold and other minor respiratory infections	*C. H. Andrewes*	221
Adenoviruses	*H. G. Pereira*	225
Recent advances in the virology of trachoma, inclusion conjunctivitis and allied diseases	*L. H. Collier*	231
Arthropod-borne viruses	*C. E. Gordon Smith*	235
Myxomatosis	*Frank Fenner*	240
Notes on Contributors		246
Book Reviews		248

INDEX TO VOLUME FIFTEEN

Names printed in large capitals are those of authors who have contributed articles to the symposia. Titles of books are printed in italics.

A

ABO blood groups, effect of natural selection, 135
—— iso-immunization, 120
Adenoviruses, 225
—— antigenic properties, 228
—— cytopathic effects, 227
—— host range, 226
—— infectivity, 227
—— multiplication, 226
Agglutinins in seeds, 165
Anaemia, haemolytic, acquired, 67
—— —— —— aetiology, 70
—— —— —— auto-antibodies, 67
—— —— —— classification, 67
—— —— —— clinical syndromes, 70
—— —— —— haematology, 70
—— —— —— pathogenesis, 70
—— —— —— treatment, 71
—— —— metabolic changes, 56
—— —— red-cell structure and metabolism in, 54
—— megaloblastic, nutritional, folic acid deficiency in, 16
—— —— post-operative, study with radioactive vitamin B_{12}, 11
—— pernicious, relation to blood group, 131
—— —— study with radioactive vitamin B_{12}, 10
—— sickle-cell, 38, 40
Anatomy: *Gray's anatomy*, 32nd ed., 88
ANDREWES, C. H.: Common cold and other minor respiratory infections, 221
—— Current virus research: introduction to symposium, 175
Antibodies, blood-group, relative clinical importance, 92
—— fluorescent, use in virus multiplication studies, 189, 194
Anticonvulsants and megaloblastic anaemia, 17
Antigens of blood-group systems, 99
Antiglobulin reaction, 113
—— —— diagnostic applications, 114
—— —— inhibition, 115
Antisera, toxoids, vaccines and tuberculins in prophylaxis and treatment, 4th ed., 249
Arborviruses. *See* Arthropod-borne viruses
Arthropod-borne viruses, 235

B

BEAVEN, G. H., *see* WHITE, J. C., 33
BELYAVIN, G.: New serological techniques in the field of virus research, 193
Biographical notes on contributors, 3, 169, 246
BIRD, G. W. G.: Haemagglutinins in seeds, 165
Blennorrhoea, inclusion, 231
Blood: *Circulation of the blood: two anatomical essays by William Harvey*, 86
Blood-group substances, adsorption from serum on to red cells, 154
—— —— —— biochemistry of, 109
—— —— —— distribution in human tissues, 105
—— groups: *ABO blood groups: comprehensive tables and maps of world distribution*, 171
—— —— and genetic linkage, 145
—— —— and natural selection, 134
—— —— anthropological aspects, 140
—— —— antibodies, immune, 92
—— —— —— relative clinical importance, 92
—— —— associations with disease, 129
—— —— *Blood groups in man*, 3rd ed., 171
—— —— *Ciba Foundation symposium on medical biology and Etruscan origins*, 171
—— —— *Determination of the ABO and Rh(D) blood groups for transfusion*, 172
—— —— genes, mutation, 105
—— —— inheritance, 99
—— —— *Practical blood grouping*, 172
—— —— relation between animal and human groups, 158
—— —— **symposium on, 89–168**
Blood, red cells. *See* Erythrocytes
—— transfusion: *Practical blood transfusion*, 172
Bone-marrow cells, culture in vitro, 47
Book reviews, 85, 171, 248
Breast, blood-group substances in, 152
BRITISH POSTGRADUATE MEDICAL FEDERATION: *Lectures on the scientific basis of medicine*, vol. VI, 250
BRODA, E. & FRISCH-NIGGEMEYER, W. (editors): *Biochemistry of viruses: proceedings of Fourth International Congress of Biochemistry, Vienna.* Vol. VII, Symposium VII, 248
BURKE, D. C., *see* ISAACS, A., 185
BURNET, Sir F. M.: Virus genetics, 177
Busulphan, toxicity, 82

C

CALLENDER, S. T.: Iron absorption, 5
Cancer, vols. 3 & 4, 88
Capillaries, blood-group substances in, 152
Cells: *Cell and tissue culture*, 250
Cervicitis, inclusion, 231
Chickenpox, relationship to zoster, 197
Chlorambucil in chronic lymphocytic leukaemia, 84
Chromium, radioactive, in red-cell labelling, 61
Coe virus, 223
Coeliac disease, folic acid deficiency in, 16
Cold, common, 221
—— —— virus of, 223
COLLIER, L. H.: Recent advances in the virology of trachoma, inclusion conjunctivitis and allied diseases, 231
Colon, blood-group substances in, 151
Conjunctivitis, inclusion, clinical features, 231
—— —— virus of, 233
Contributors, biographical notes on, 3, 169, 246
COOMBS, R. R. A. & ROBERTS, F.: The antiglobulin reaction, 113
Coxsackie viruses, 210

D

DACIE, J. V.: Acquired haemolytic anaemias, 67
DANE, D. S., *see* DICK, G. W. A., 205
DARMADY, E. M. & DAVENPORT, S. G. T.: *Haematological technique for medical laboratory technicians and medical students*, 2nd ed., 173
DAVENPORT, S. G. T., *see* DARMADY, E. M., 173

DAVIES, F., *see Gray's anatomy*, 88
DE GRUCHY, G. C.: *Clinical haematology in medical practice*, 85
DELAFRESNAYE, J. S., *see* JONXIS, J. H. P., 173
Deoxyribonucleic acid, 178
Diarrhoea due to enteroviruses, 213
DICK, G. W. A. & DANE, D. S.: Vaccination against poliomyelitis in the United Kingdom, 205
DIXON, M. & WEBB, E. C.: *Enzymes*, 87
DOMANIEWSKA-SOBCZAK, K., *see* MOURANT, A. E., 171
DOWNIE, A. W.: Chickenpox and zoster, 197
Duodenal ulcer, relation to blood group, 129

E

ECHO viruses, characteristics, 210
—— —— respiratory effects, 222
Electron microscopy in virus multiplication studies, 190
Embryology: *Borderland of embryology and pathology*, 87
Enteroviruses, 210
—— associated infections, 212
—— respiratory effects, 222
Enzymes, 87
Erythrocytes, adsorption of blood-group substances from serum on to, 154
—— auto-antibodies, blood-group specificity, 98
—— labelling with radioactive chromium, 61
—— metabolism, 54
—— structure, 54
—— —— and metabolism in haemolytic anaemia, 54
—— survival and destruction in haemolytic syndromes, 59

F

FENNER, F.: Myxomatosis, 240
Folic acid, deficiency, 15
—— —— metabolic abnormalities, 15
—— —— role in blood disorders, 14
FRANKLIN, K. J., *see* HARVEY, W., 86
FRISCH-NIGGEMEYER, W., *see* BRODA, E., 248

G

GALTON, D. A. G.: Treatment of the chronic leukaemias, 78
GIRDWOOD, R. H.: Role of folic acid in the blood disorders, 14
Glutathione, red-cell, in haemolytic anaemia, 56
Glycolysis, red-cell, in haemolytic anaemia, 57
GLYNN, L. E. & HOLBOROW, E. J.: Distribution of blood-group substances in human tissues, 150
GOWANS, J. L.: Life-history of lymphocytes, 50
Gray's anatomy: descriptive and applied, 32nd ed., 88
GURR, E.: *Methods of analytical histology and histochemistry*, 87

H

Haemadsorption viruses, 221
Haemagglutinins in seeds, 165
Haematological technique for medical laboratory technicians and medical students, 2nd ed., 173
Haematology: *Clinical haematology in medical practice*, 85
Haematology: *Proceedings of Sixth International Congress of International Society of Hematology*, 85
—— **symposium on, 1–85**
Haemoglobin C, 28
—— D, 31, 45
—— E, 29, 45
—— F. *See* Haemoglobin, foetal
—— foetal, 33
—— —— detection, physico-chemical methods, 36
—— —— in anaemias of early onset, 40
—— —— pathological significance, 37
—— —— physiology, 36
—— —— quantitative estimation, 34
—— S, 40
—— sickle-cell, 28
—— synthesis, 19
—— —— variations, and factors governing their inheritance, 40
Haemoglobins, abnormal: *Abnormal haemoglobins: a symposium*, 173
—— —— chemistry of, 27
—— —— distribution, 43
—— —— hereditary, 37
—— —— *Laboratory manual on abnormal haemoglobins*, 173
Haemolytic disease of new-born, 97, 119
—— —— —— —— and ABO groups, 135
—— —— —— —— as family problem, 126
—— —— —— —— caused by Rh incompatibility, 134
—— —— —— —— causes of death, 123
—— —— —— —— *Comparative aspects of haemolytic disease of the newborn*, 172
—— —— —— —— diagnosis, 123
—— —— —— —— management as community problem, 123
—— —— —— —— prognosis, 126
—— —— —— —— treatment, 121, 124
HARVEY, William: *The circulation of the blood*, translated and annotated by K. J. Franklin, 86
Harvey Lectures 1957–58, Series LIII, 249
Herpes zoster, relationship to chickenpox, 197
HEWITT, D., *see* STEWART, A. M., 73
Histochemistry: *Methods in analytical histology and histochemistry*, 87
Histology: *Methods of analytical histology and histochemistry*, 87

HORSFALL, F. L., *see* RIVERS, T. M., 249
HUISMAN, T. H. J., *see* JONXIS, J. H. P., 173

I

Immunology: *Antisera, toxoids, vaccines and tuberculins in prophylaxis and treatment*, 4th ed., 249
Influenza, attack-rates, 217
—— clinical features, 218
—— immunization with virus vaccines, 219
—— mortality rate, 217
—— viruses, 216
—— —— genetic interactions, 179
—— —— variation, and origin of epidemics, 216
INGRAM, V. M.: Chemistry of the abnormal human haemoglobins, 27
Interferon, 185
—— interference characteristics produced by, 186
—— production, 187
—— properties, 188
Intestinal malabsorption syndrome, study with radioactive vitamin B_{12}, 11
Iron, absorption, 5
—— requirements, 5
ISAACS, A. & BURKE, D. C.: Viral interference and interferon, 185
—— & LACEY, B. W. (editors): *Virus growth and variation: ninth symposium of Society for General Microbiology*, 248

J

JAMES, J. D.: *Practical blood transfusion*, 172
Jejunum, blood-group substances in, 151
JOHNSTON, T. B., *see Gray's anatomy*, 88
JONXIS, J. H. P. & DELAFRESNAYE, J. S. (editors): *Abnormal haemoglobins: a symposium*, 173
—— & HUISMAN, T. H. J.: *Laboratory manual on abnormal haemoglobins*, 173
